MASTER SITE MAP | ACUAN LOKASI VENUE

Posisi V1 Downtown Walk, V2 atrium (A/B/C), dan V3 Sawarga Courtyard mengacu pada screenshot Ground Floor yang diberikan.

SUMMARECON MALL BANDUNG

MASTER VENUE ZONING | GROUND FLOOR

ZONA VENUE

V1 | Downtown Walk
Outdoor / alfresco
Utama: Standing
Alternatif: Book by Quota

V2 | Atrium Mall
A Cibadak • B Cileutik
C Ciunik (opsi terakhir)
Utama: Quota / Standing

V3 | Sawarga Courtyard
Open-air courtyard
Utama: Standing / Quota
Seat: jika kursi dipasang

PENANDA TIPE BOOKING

SEAT — kursi bernomor
QUOTA — area tanpa nomor
STANDING — area berdiri

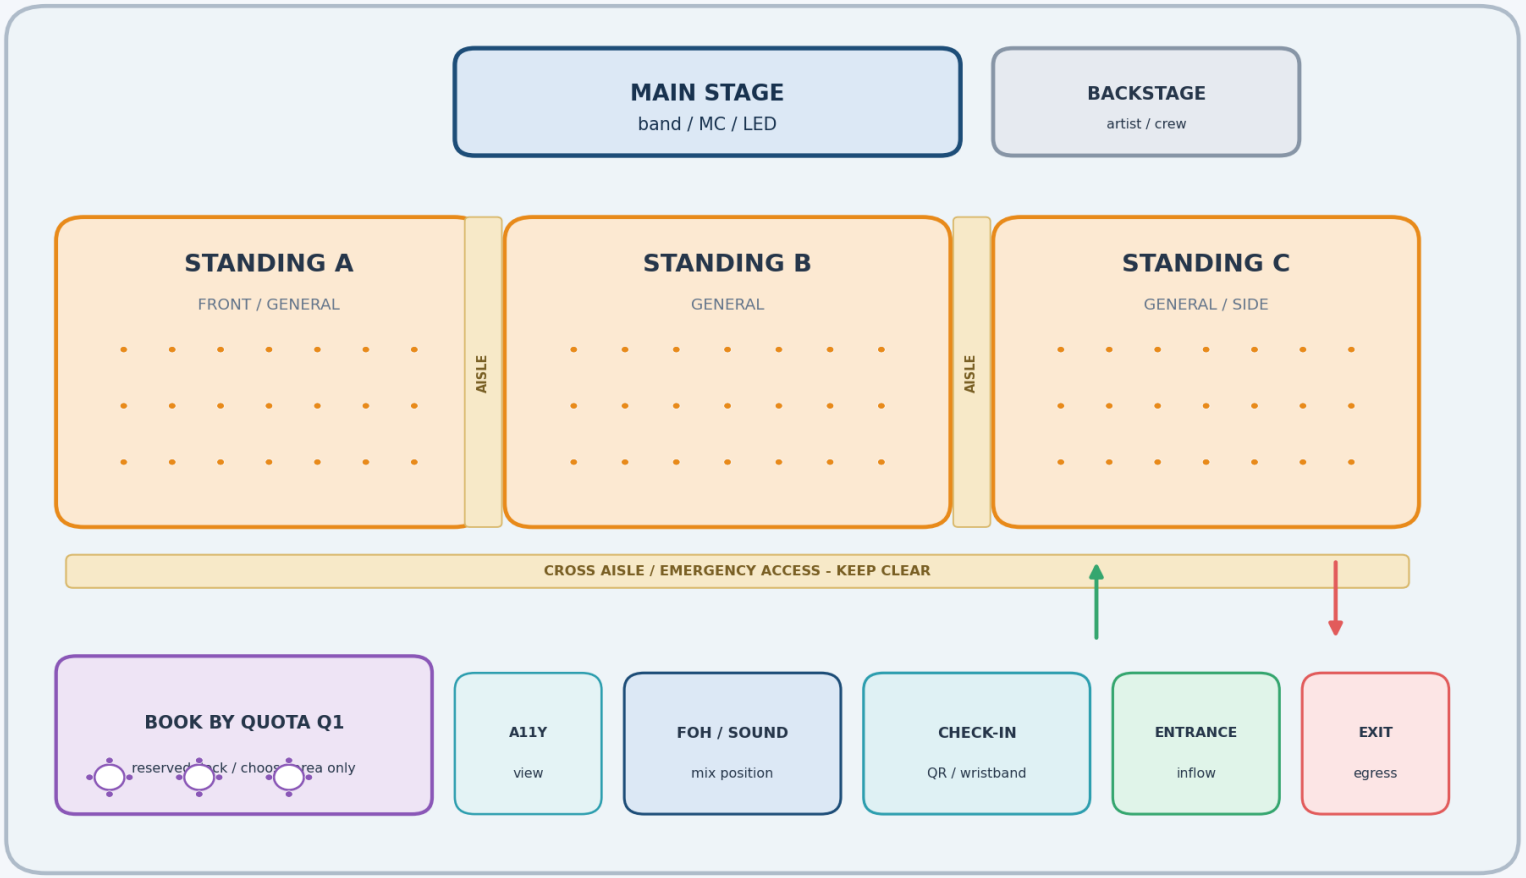

Catatan: penanda zona bersifat indikatif berdasarkan screenshot peta yang diberikan; bukan batas teknis / ukuran resmi venue.

Catatan: peta mall menunjukkan konteks lokasi. Denah detail per venue pada halaman berikut adalah konfigurasi event konseptual, bukan hasil pengukuran bangunan.

VENUE 1 | DOWNTOWN WALK

OUTDOOR / ALFRESCO PROMENADE • default: STANDING • alternative: BOOK BY QUOTA / temporary seats

V1 / OUTDOOR

BOOKING SETUP

STANDING A / B / C

Section tanpa kursi. Peserta membeli kuota; tidak memilih titik berdiri.

BOOK BY QUOTA Q1

Reserved deck. Pilih section / allotment, bukan kursi bernomor.

BOOK BY SEAT

Hanya aktif bila kursi temporer dipasang dan setiap kursi diberi ID.

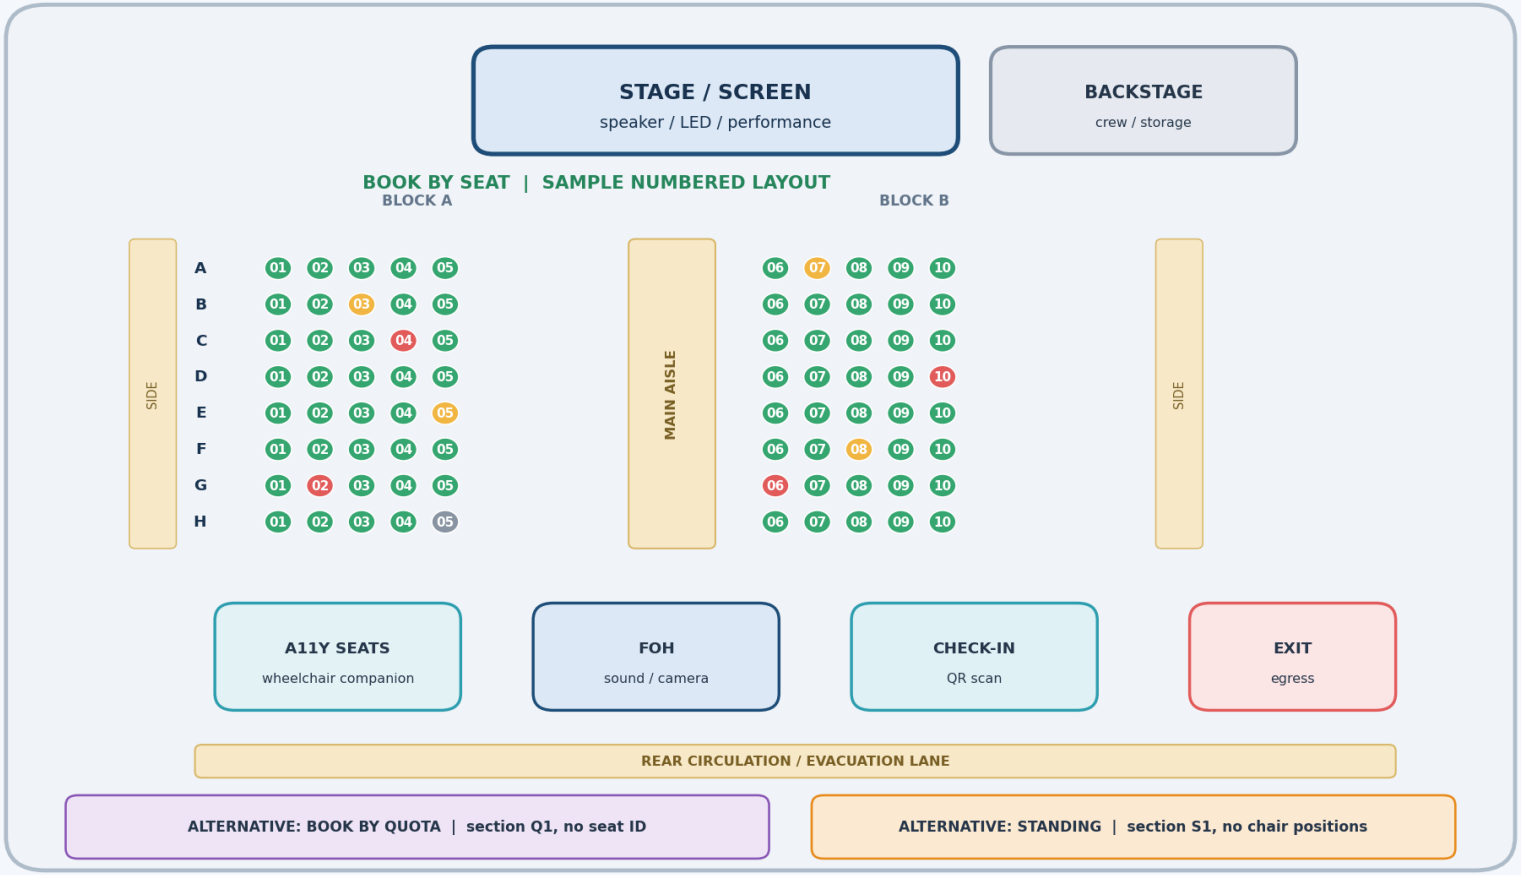

FLOW

Entrance dan exit terpisah pada skema; aisle dan jalur evakuasi wajib kosong.

STANDING dots hanya penanda visual, bukan hitungan orang atau standar kepadatan. Tata letak aktual mengikuti tenant, izin, dan inspeksi venue.

VENUE 2A | ATRIUM CIBADAK

LOBBY AGEUNG • sample event layout: 80 numbered seats • alternate setup: quota or standing section

V2 / INDOOR

SEAT MAP / ID

SEAT ID EXAMPLE

CB-A01 = row A, seat 01. Row A-H; seat 01-10.

AVAILABLE

Green seat can be selected.

LOCKED / RESERVED

Amber seat is temporarily held during checkout.

SOLD / BLOCKED

Red = sold. Grey = blocked by admin.

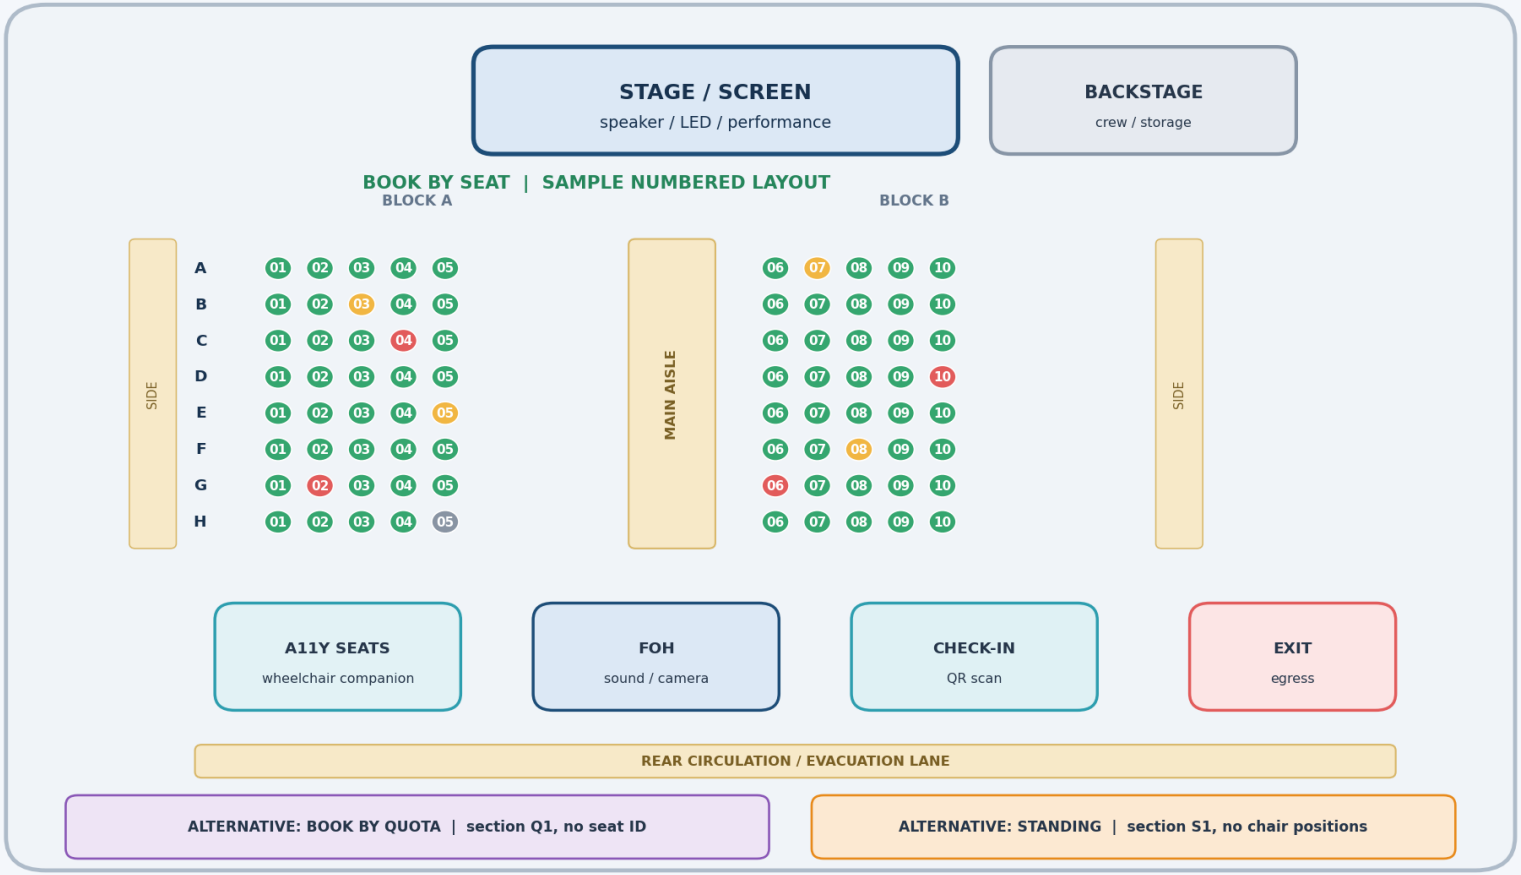

ALTERNATE MODES

Seat rows must be removed / reconfigured before changing to quota or standing.

80 seats adalah contoh data prototype (8 x 10), bukan kapasitas resmi atrium. Ukuran ruang, jalur, stage, dan posisi pintu harus diverifikasi.

VENUE 2B | ATRIUM CILEUTIK

LOBBY ALUS • sample event layout: 80 numbered seats • alternate setup: quota or standing section

V2 / INDOOR

SEAT MAP / ID

SEAT ID EXAMPLE

CL-A01 = row A, seat 01. Row A-H; seat 01-10.

AVAILABLE

Green seat can be selected.

LOCKED / RESERVED

Amber seat is temporarily held during checkout.

SOLD / BLOCKED

Red = sold. Grey = blocked by admin.

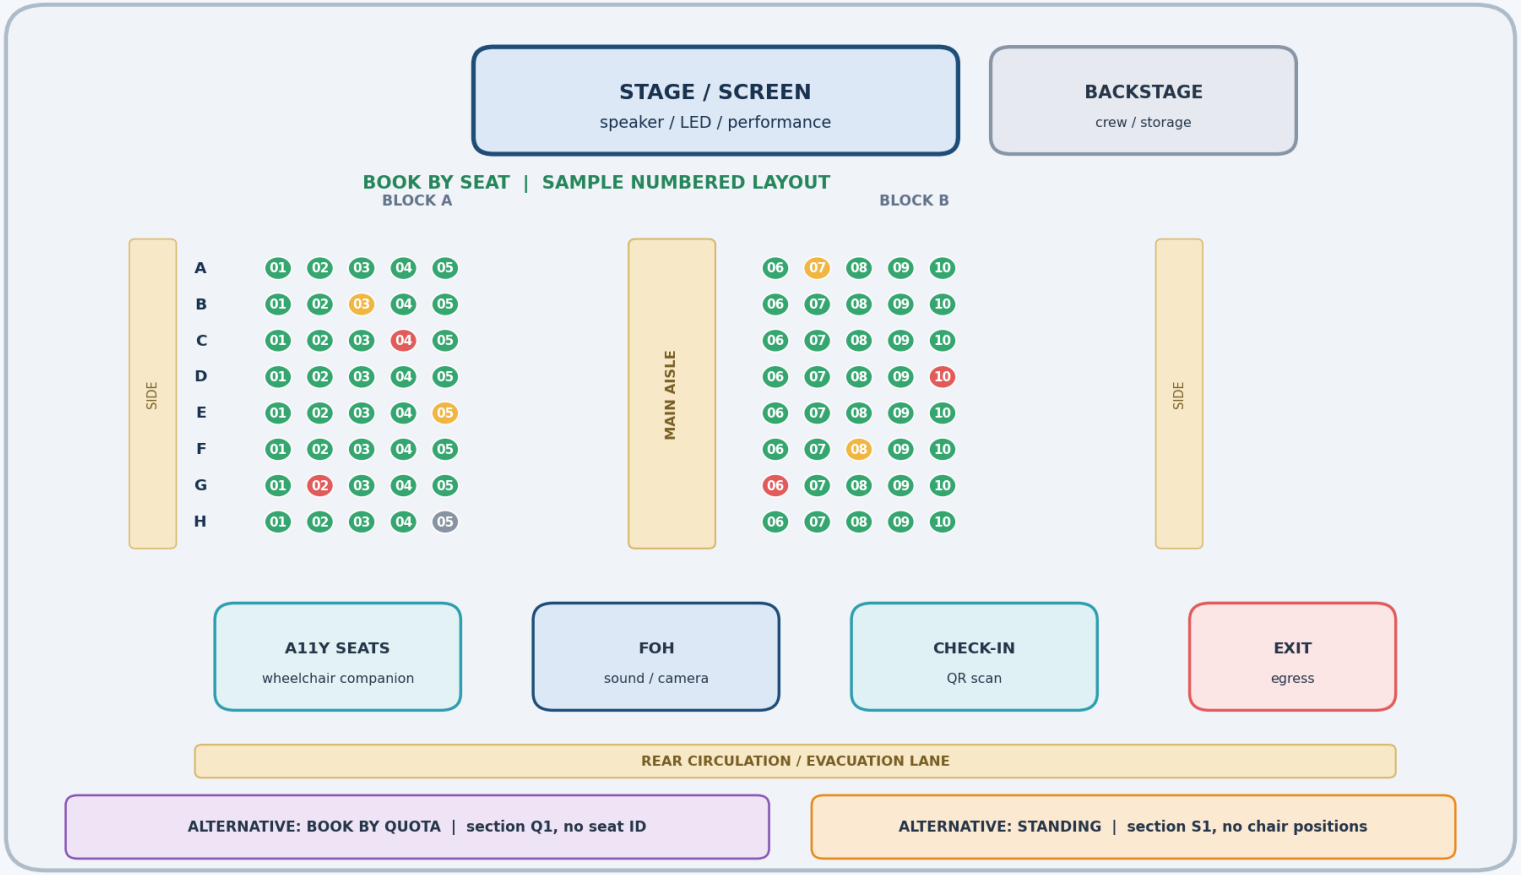

ALTERNATE MODES

Seat rows must be removed / reconfigured before changing to quota or standing.

80 seats adalah contoh data prototype (8 x 10), bukan kapasitas resmi atrium. Ukuran ruang, jalur, stage, dan posisi pintu harus diverifikasi.

VENUE 2C | ATRIUM CIUNIK

ALTERNATIF TERAKHIR • sample event layout: 80 numbered seats • alternate setup: quota or standing section

V2 / INDOOR

SEAT MAP / ID

SEAT ID EXAMPLE

CN-A01 = row A, seat 01. Row A-H; seat 01-10.

AVAILABLE

Green seat can be selected.

LOCKED / RESERVED

Amber seat is temporarily held during checkout.

SOLD / BLOCKED

Red = sold. Grey = blocked by admin.

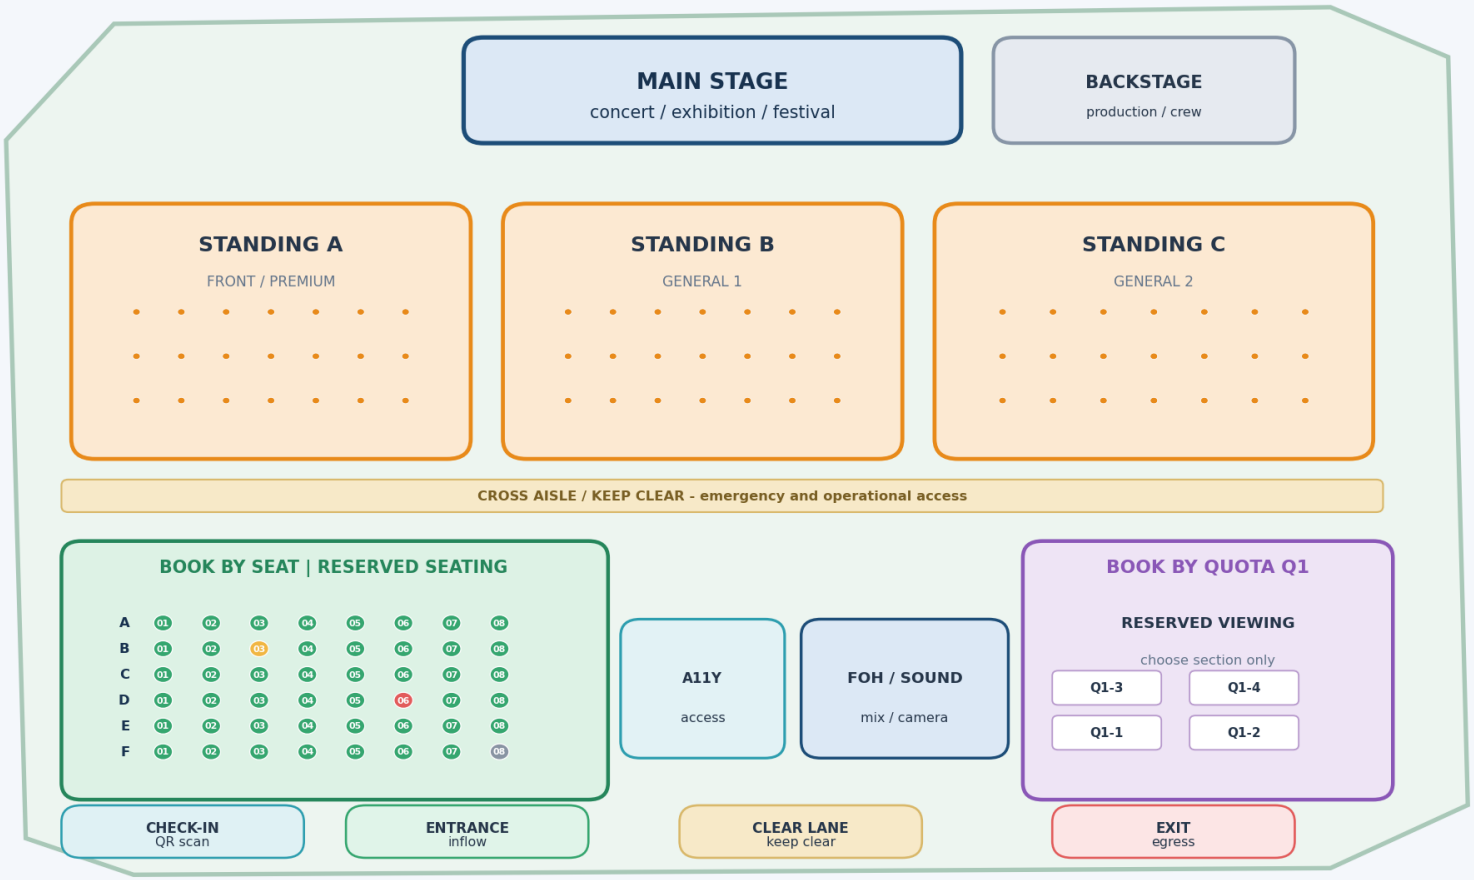

ALTERNATE MODES

Seat rows must be removed / reconfigured before changing to quota or standing.

80 seats adalah contoh data prototype (8 x 10), bukan kapasitas resmi atrium. Ukuran ruang, jalur, stage, dan posisi pintu harus diverifikasi.

VENUE 3 | SAWARGA COURTYARD

OPEN-AIR COURTYARD • suggested hybrid event mode: STANDING + BOOK BY QUOTA + temporary numbered seats

V3 / COURTYARD

SECTION SETUP

STANDING A / B / C

Three ticket sections without individual positions. Each has its own capacity counter.

BOOK BY SEAT

Reserved chair block, sample 6 rows x 8 seats = 48 sample seat IDs.

BOOK BY QUOTA Q1

Reserved viewing allotment, section only; no seat number or exact position selection.

COURTYARD AREA

Mall identifies Sawarga Courtyard as a 3,600 m2 outdoor green space; this is not usable event area.

48 numbered seats and all sections are prototype examples only. Do not infer a crowd capacity from 3,600 m2; stage, landscape, routes, setbacks, and safety reduce usable area.

BOOKING MAP | LEGEND & SYSTEM RULES

How the detailed venue drawings translate into the customer seat map and admin configuration

BOOKING LOGIC

BOOK BY SEAT

Peserta memilih kursi bernomor.

Contoh ID: CB-A01, CL-D07, SW-C04.

Kapasitas berasal dari kursi aktif, dikurangi kursi blocked.

BOOK BY QUOTA

Peserta memilih section, bukan kursi.

Contoh: Q1 - tersedia 28 dari 40.

Kapasitas section dihitung dari kuota yang diset dan reservasi aktif.

STANDING

Area tanpa kursi dan tanpa posisi bernomor.

Contoh: Standing A - 120 kuota TBC.

Tampilan denah berupa section dan penghitung kuota, bukan titik orang.

STATUS KURSI

- **AVAILABLE** — Dapat dipilih peserta.
- **LOCKED / RESERVED** — Sedang ditahan saat checkout; sementara.
- **SOLD** — Sudah dibayar / terjual.
- **BLOCKED** — Diblokir admin; tidak dapat dipilih.

ATURAN PENTING UNTUK PROTOTYPE TICKETING

1. Satu event menggunakan tepat satu venue; pilih salah satu Atrium (Cibadak / Cileutik / Ciunik), bukan ketiganya sekaligus.
2. Seat map master bersifat tetap. Admin memilih section / kelompok kursi untuk event; harga dan kategori ditetapkan pada konfigurasi event.
3. Seat locking berjalan 10 menit. Jika pembayaran belum berhasil, backend memeriksa status pembayaran sebelum kursi / kuota dilepas.
4. Kuota Book by Quota dan Standing tidak boleh terlampaui; sistem menghitung tiket terjual + reservasi aktif terhadap kuota.
5. Semua ID, angka contoh, posisi stage, entrance, exit, dan kapasitas pada blueprint ini adalah data prototype - perlu validasi pengelola mall.

Rujukan logika: UPDATED DOKUMEN ANALISIS AWAL SISTEM, bagian 3.1-3.3, 6.1-6.2, dan 7.1; angka kapasitas pada diagram hanyalah contoh tampilan.
